

## ADMISSION

Student Tracker Admission module will help you keep track of students admission, student grades and student financial information.

This module is designed to improve communications between teachers, parents and students.

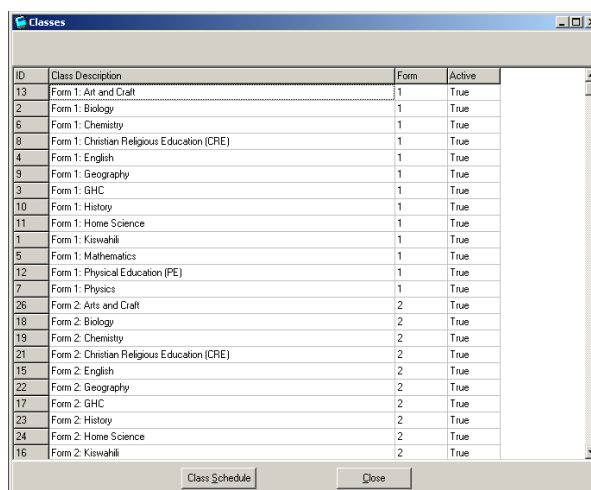

The screenshot shows a 'Student Detail' window for Hussein, Juma M. It includes fields for Student Number (12), Student Name, Last Name (Hussein), First Name (Juma), Middle (M), Gender (M), Date of Birth (12/30/1999), Form (1), Status (In School), Address (P.O. Box 8101), City (Nairobi), Location (Nairobi), Postal Code (00200), and a comment field. There are also buttons for 'Save and Close' and 'Close'.

We also believe that having a comprehensive student record is vital in helping a student maintain and/or improve their performance. So our comment screen allows you to document on a students progress from the time they first join the school.

## CLASSES

The Class Record module allows you to add a class, add a schedule for a class and also assign a class to a teacher.

This module is designed to schedule teachers to classes.

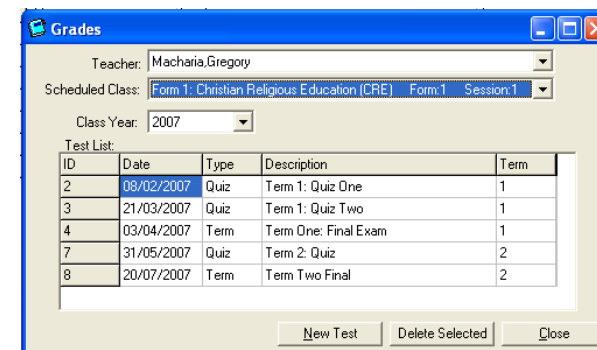

ID	Class Description	Form	Active
13	Form 1: Art and Craft	1	True

We believe that planning ahead is important to a school administrator. Because of that the class module gives you the capability of planning your class/teacher schedules for years to come. It also gives you the capability of going back 15 years.

## GRADES

Grade module gives you the capability to add, view and enter student grades.

This module is designed to tracking student's end of year exams and mid-term quizzes.

The screenshot shows the 'Grades' window with Teacher: Macharia, Gregory and Scheduled Class: Form 1: Christian Religious Education (CRE) Form:1 Session:1. The Class Year is 2007. Below is a 'Test List' table:

ID	Date	Type	Description	Term
2	08/02/2007	Quiz	Term 1: Quiz One	1
3	21/03/2007	Quiz	Term 1: Quiz Two	1
4	03/04/2007	Term	Term One: Final Exam	1
7	31/05/2007	Quiz	Term 2: Quiz	2
8	20/07/2007	Term	Term Two Final	2

We believe giving you the ability to add student grades to a group of students at one given time removes the possibility of making critical errors that might impact a student record.
